

SRP PROJECT of the MONTH

BON AIR BAPTIST CHURCH

Bon Air Baptist Church, located in Bon Air, Va., recently added a new conference, banquet, and family life center to its existing facility. Major features include a regulation size basketball court with a wood floor. The gymnasium has a movable partition to allow for expanded seating in the adjacent conference rooms. The 60,000 square foot two story addition also includes classrooms, a new kitchen, and an unfinished upper floor for future expansion. Multiple air conditioning systems with dehumidification and modulating ventilation control capabilities are provided for flexibility. The facility is fully sprinkled.
